SUMMARY (Give summary which highlights the salient factors of narrative report. Begin narrative text on AF Form 112a unless report can be fully stated on AF Form 112. List inclosures, including number of copies)				
<p>On the 20th day of July 1958, Mrs. [REDACTED] reported to this unit an unidentified flying object. Subject object was observed on 20 July 1958 at 0835Z. Description of object as follows.</p> <p>0835Z - 5 - 32 - 131 - 13</p> <p>One (1) round shaped object, the size of an apple. Color white and red. Object was below tree top level.</p> <p>The observer first sighted it out of her living room window. Object remained in sight for five minutes at this position then shot straight up into the sky. Object was in sight another six minutes before disappearing. Weather condition was clear. No contrails or sound.</p> <p>Place of sighting was Munica Michigan.</p> <p>Mrs. [REDACTED] may be reached by phoning [REDACTED] ← That has 100% contact and intelligence. (partly obscured)</p> <p>The observer is reported to have many hours as an observer for the GOC.</p> <p>Final warning!</p> <p>INCLs</p> <p>The reporter officer who submitted this UFO report did not comply with AFM 300-2. Info here is too meager. Essential elements of info (EE's) are missing. No T1 RIS sent. He did not investigate as required by law. 196. 1 UFO regulation.</p>

MEMORANDUM FOR DIRECTOR, LEGISLATIVE LIAISON, SAFLL
ATTENTION: Major Allen F. Will

SUBJECT: Letter from C/M Pucinski

Follows a draft of a suggested reply to Congressman Pucinski
reference his letter from Mr. [REDACTED]

I refer to your recent letter concerning unidentified flying
objects from your constituent, Mr. [REDACTED]

A search of the Aerospace Technical Intelligence Center's
UFO files reveals no case reported for Illinois on 4 November 1957,
nor is there a case for the area on the 3rd or 5th of November 1957.

The case referenced as taking place on 19 July 1958 actually
occurred on 20 July 1958. The object was sighted in the Crystal Lake
area of Illinois and was identified by the Aerospace Technical
Intelligence Center analyst as a balloon. The description of the
object, position of the sun, and wind vector substantiate the conclusion.
The sighting was made from an aircraft which was moving in the exact
opposite direction from the wind, and the high closure rate accounts
for the relatively short duration of the sighting. Other factors which
probably contributed to the lack of identification of this object were
the scattered clouds between the aircraft and object plus the fact that
the object was between the aircraft and the ground and therefore probably
blended into this complex background.

This sighting took place during the month of November 1957 which
recorded more UFO sightings than most years. (See attached press release.)

Memo for SAFLL, Subj: Letter from C/M Pucinski

Mr. [REDACTED] is a confirmed believer that space travel in reverse exists and we are being watched by intelligent beings from other planets. He believes that UFO's or popularly termed "flying saucers" are space ships.

We have had considerable correspondence with Mr. [REDACTED] on this subject and he has been informed on two or three occasions that the joint Army-Navy-Air Force publication #146 is out of print and is too voluminous to copy. In this regard he is invited to visit this Office where he can read and copy this publication in whole or in part.

His request for Army publications should, of course, be directed to the Department of the Army and Mr. [REDACTED] should be informed that classified documents are not available.

REPLY TO
ATTN OF: AFCIN-4E2

SUBJECT: UFO Letter - Congressman R. C. Pucinski

10 FEB 1960

re: SAFOI-3d (Major Tacker)

1. A search of the ATIC UFO files reveals no case reported for Illinois on 4 November 1957, nor is there a case for the area on the 3rd or 5th of November 1957. It should be noted in Mr. [redacted] letter that he points out the fact that this case was not reported to ATIC.

2. The case referenced as taking place on 19 July 1958 actually occurred on 20 July 58. The object was sighted in the Crystal Lake area of Illinois and was identified by the ATIC analyst as a balloon. The description of the object, position of the sun, and wind vector tend to substantiate the conclusion. The sighting was made from an aircraft which was moving in the exact opposite direction from the wind, and the high closure rate accounts for the relatively short duration of the sighting.

Other factors which probably contributed to the lack of identification of this object were:

a. Scattered clouds between the aircraft and object.

b. [redacted] the object was between the aircraft and the ground and therefore probably blended into this complex background.

This sighting took place during the month of November 1957 which recorded more UFO sightings than most years. (See attached [redacted] file.)
